

Support and Information for Colitis and Crohn's Disease

The Crohn's in Childhood Research Association (CiCRA) and the National Association for Colitis and Crohn's Disease (NACC) offer support and information to all families and young people affected by Colitis or Crohn's Disease. Both organisations provide a range of information and help through their websites, booklets and over the telephone. Both also support research into the causes of these two inflammatory bowel diseases.

Our thanks go to **SHS (UK) Ltd**

for supporting this initiative by the two charities to ensure that all families affected by these illnesses are aware of the help that is available to them.
